

## Donkin Roofing 9no Office Units - Stockport

June 2007

Duration: 6 weeks

Project scope: 4,200m<sup>2</sup> Safety Netting  
804lm Edge Protection  
9no 7.0m Stair towers

Location: Stockport , Cheshire

This was a multi-phased project consisting of nine separate units. We worked on a continuous program striking materials from one unit and then re-erecting to the next to ensure continuation of works for the roofing contractor. A Stair Access Tower was erected to each unit to complete the full 'RoofSafe' package.
