

## Hathaway Roofing New Warehouse Development Birtley

June 2007

Duration: 12 weeks

Project scope: 31,000m<sup>2</sup> Safety Netting  
1170lm Edge Protection  
500lm Tripod E/P  
6no 17.0m Stairtowers

Location: Birtley , North East

This project involved installing Safety Netting & Edge Protection in multi phased roof sections. As the erection of the steelworks progressed we ensured we were always ahead of the roofing gangs with the installation of our works whilst removing safety netting from areas of completed roofing. We supplied Stair Access Towers throughout the phased roofs to provide safe access and egress at roof level to complete the full 'RoofSafe' package.
