

Lakesmere Eerie Basin Development Salford Quays

June 2007

Duration: 8 weeks

Project scope: 2no High Level Designed scaffolds
Cantilevered from high level roof
(230ft total height)

Location: Salford Quays, Manchester

This project involved installing the scaffolding structures utilising both scaffolders and Industrial Access Technicians. The scaffolds were designed and drawn by 'Scaffold Designs' and installed as per the calculated drawings. This has been our highest project to date.
